(57) **CLAIM**
I claim the ornamental design for a “hands-free support for an information technology equipment rack,” as shown.

DESCRIPTION

FIG. 1 is a perspective view of a hands-free support for an information technology equipment rack;

FIG. 2 is a top view of the hands-free support for an information technology equipment rack;
 FIG. 3 is a bottom view of the hands-free support for an information technology equipment rack;
 FIG. 4 is a right-side view of the hands-free support for an information technology equipment rack;
 FIG. 5 is a left-side view of the hands-free support for an information technology equipment rack;
 FIG. 6 is a front view of the hands-free support for an information technology equipment rack;
 FIG. 7 is a rear view of the hands-free support for an information technology equipment rack;
 FIG. 8 is a perspective view of another embodiment of the hands-free support for an information technology equipment rack;
 FIG. 9 is a top view of the other embodiment of the hands-free support for an information technology equipment rack;
 FIG. 10 is a bottom view of the other embodiment of the hands-free support for an information technology equipment rack;
 FIG. 11 is a right-side view of the other embodiment of the hands-free support for an information technology equipment rack;
 FIG. 12 is a left-side view of the other embodiment of the hands-free support for an information technology equipment rack;
 FIG. 13 is a front view of the other embodiment of the hands-free support for an information technology equipment rack;
 FIG. 14 is a rear view of the other embodiment of the hands-free support for an information technology equipment rack; and,
 FIG. 15 is a top view of the hands-free support for an information technology equipment rack shown in FIG. 2 but where knob are moved in the direction of the arrows; and,
 FIG. 16 is a rear view of the hands-free support for an information technology equipment rack shown in FIG. 7 but where the bars are moved in the direction of the arrows.
 Broken lines illustrate environmental features and form no part of the claimed design.
